

Environmental Policy

As a leading provider of energy and carbon management services JRP Solutions is acutely aware of its responsibility to the environment. We are committed to managing and continually seeking to improve our environmental performance and that of our customers. We believe that good environmental performance demonstrates high standards of corporate responsibility and generates cost saving opportunities.

This policy applies to the Company's internal operations and the provision of all JRP services to its customers.

Our approach is to:

- Ensure we meet or exceed all relevant environmental legislation and regulations.
- Communicate our environmental objectives and progress to employees, customers and any other interested parties.
- Set objectives and targets which reflect the business plan and demonstrate our commitment to reduce the impact of our activities on the environment by minimising unnecessary business travel and minimising waste.
- Ensure that appropriate training is given to Employees and contractors relating to their role and the possible effect they can have on environmental issues.
- Monitor our performance and identify necessary improvement actions in order to continually improve our systems and processes.
- Periodically review this policy at executive management level to ensure its continuing relevance.
